## SUMMARY

**Full-Stack Developer** with expertise in **React.js**, **Java, Spring Boot**, and **REST API** development. Experienced in building **responsive**, user-friendly **web applications** with clean and modern frontend design. Proficient in developing **secure backend services** and managing databases using **MySQL** and **MongoDB**. Strong foundation in **Data Structures, Object-Oriented Programming**, and problem-solving with a passion for continuous learning and growth.

## EDUCATION

**Sipna College of Engineering and Technology, Amravati**                                **2022 – 2026**
*B.E. (Pursuing) in **Electronics and Telecommunication Engineering** – CGPA: 7.47*    Amravati, Maharashtra

## EXPERIENCE

**Soham Global**                                                                        **Feb 2025 – July 2025**
*Role – **Trainee Application Developer***

- Worked on **Java** and **Spring Boot** backend development and built **REST APIs**.
- Handled database integration using **MySQL**.
- Gained practical experience in developing backend features and understanding real-world development workflows.

## TECHNICAL SKILLS

**Programming Languages:** Java, Python
**Web Development:** React.js, Tailwind CSS, HTML, CSS, JavaScript, Responsive UI Design
**Backend Development:** Spring Boot, Hibernate, REST API Development
**Databases:** MySQL, MongoDB
**Web Technologies:** API Integration, CRUD Operations, Authentication Basics
**Tools & Platforms:** Eclipse, VS Code, GitHub, Postman, MongoDB Atlas, MongoDB Compass
**Core Concepts:** Object-Oriented Programming (OOP), Data Structures, Problem Solving

## PROJECTS

**MindCare – Mental Health Web Application** | *Java, Spring Boot, MySQL, REST APIs*            **Jan 2026**

- Developed a **full-stack** mental health **web application** with secure user authentication, profile management, mood tracking, sleep tracking, mental health assessments, and calming sound features for better user wellbeing.
- Built **RESTful** backend services using **Spring Boot** with **MySQL** integration and implemented a one-to-one support chat system along with a responsive frontend for smooth, real-time user interaction.

**Chatbot** | *HTML, CSS, JavaScript*                                                          **Dec 2025**

- Developed an interactive chatbot with real-time response generation using **Google Gemini API**, featuring typing animation, smart suggestions, and a clean responsive UI.
- Implemented file upload support, chat history management, dark/light theme toggle, and stop-response functionality to enhance user interaction and usability.

## ACHIEVEMENTS

- Certified in Enterprise Java Development – Soham Global                         **Feb 2025 – July 2025**
- Google Cloud Computing Foundations & Generative AI – Google Cloud (Issued by GDSC)
- Completed Internship as Trainee Application Developer – Soham Global            **Feb 2025 – July 2025**
- Android Developer Virtual Internship – AICTE EduSkills (Google for Developers)  **Jan 2025 – Mar 2025**
